

5th Edition of Competition on Best Practices in **Occupational Health & Safety**

Theme 2023:
Contractor Safety Management

CII in its 5th edition of the competition intends to focus on Occupational Safety, Health and Working Conditions Code, 2020 which places certain duties on principal employer as well as contractor with regards to protection of contract labour employed in the organization, with the objective to recognize good safety practices on the part of organizations in terms of ensuring safety of its outsourced manpower, both employed in non-routine activities or in temporary capacity; and to stimulate and maintain the interest of contractors and the workers in prevention of accidents.

Objectives

To Inculcate the Culture

of prevention with an aim to make workplaces safer.

To Recognize Best Practices

in Occupational Health & Safety in Industry.

To Facilitate Sharing

of knowledge and implementation of best practices among the industries.

Assessment Parameters

The Applications will be evaluated based on the merit or uniqueness of the following parameters:

Contribution to Higher Standards of Safety & Risk Reduction Measures

Adding High Value to the Morale of the Employees and contractors

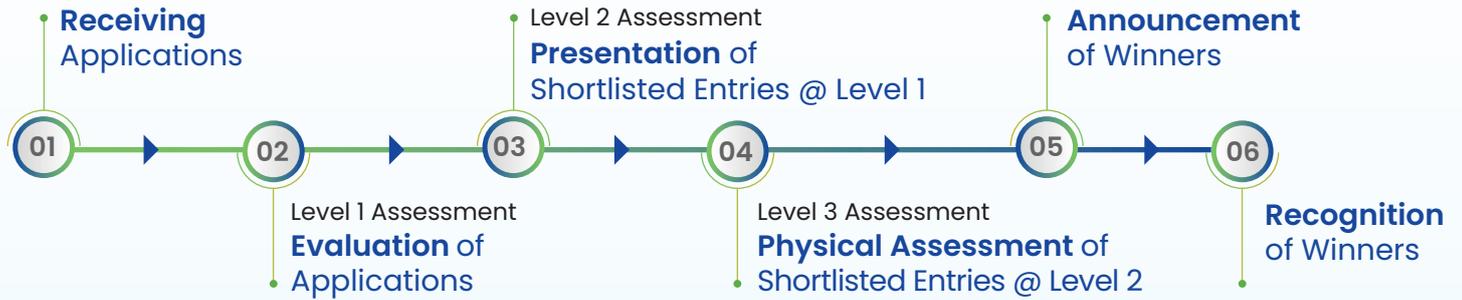

Innovation & Sustainability

Benchmarking for other similar Industries

- All the entries would be rated on the scale of 1-10 based on the above parameters (with 1 being the lowest and 10 the highest)
- All the parameters carry equal weightage.
